

Agreement regarding publication of classified materials/products

I am aware that the collected data will be saved in RISEs database for materials and products that have been tested and classified according to EN 45545-2 (www.rollingstockmaterials.com). The database is accessible to the public. By communicating these data to RISE and allow RISE to save them in RISEs database we also accept that the data may be accessible to outsiders.

Fill in appendix 1, sign and send back to anna.bergstrand@ri.se or RISE Safety – Fire Research, Box 857, 501 15 Borås, att: Anna Bergstrand.
