Invitation to join:

The Industrial Ceramic Research Association
The Industrial Ceramic Research Association is aimed at companies that:

- want to have contact with and exchange information with colleagues in the same field.
- want to follow research developments – nationally and internationally.
- want to be able to have an impact on RISE’s research in the ceramics area.

As a member of the Industrial Ceramic Research Association you will:

- be able to actively participate in and affect the research on ceramics through Member projects.
- get access to competitive intelligence in specific areas.
- get access to results from other research funded by public means.
- get access to published material through the Membership pages.
- have the possibility of ordering work at cost.

Membership terms and conditions

- The application for membership is made by filling out the enclosed application form.
- Termination of shares is made in writing to the Industrial Ceramic Research Association.
- The membership is automatically extended by 1 year at a time if cancellation of the membership is not made by 30 June at the latest.
- Other terms and conditions are specified in the regulations of the Industrial Ceramic Research Association.
About The Industrial Ceramic Research Association

Prior to that, the Industrial Ceramic Research Association was the industrial owner of the Swedish Ceramics Institute AB, which became part of Swerea IVF in March 2005. From 1 October 2018 Swerea IVF became part of a newly formed division called Materials and production in RISE, Research Institutes of Sweden.

RISE Research Institutes of Sweden

RISE is Sweden’s research institute and innovation partner. Through our international collaboration programmes with industry, academia and the public sector, we ensure the competitiveness of the Swedish business community on an international level and contribute to a sustainable society. Our 2,700 employees engage in and support all types of innovation processes. RISE is an independent, State-owned research institute, which offers unique expertise and over 100 testbeds and demonstration environments for future-proof technologies, products and services.
