

# SurfCenter – Discussion prompts

These questions are prompts to kick off the discussion around needs and expectations about **close and intensive collaboration** in a competence centre to work towards a more **sustainable surface treatment industry**

## About SurfCenter:

- What are your expectations from such a constellation?
- What do you think the focus should be put on?
- Do you have ideas on how you would like to work?

## About surface treatment:

- What is “surface treatment industry” for you?
- What are the activities in surface treatment that concern you today in terms of sustainability and agenda2030?
- What competences are needed?
- Which partners in your network would you like to include?

## Some practical issues:

- Deadline to decide on budget according to internal process
