This document covers rules and guidelines that govern the use of the OEKO-TEX® trademark and OEKO-TEX® labels. It defines the guideline for a standardised appearance of the OEKO-TEX® labels. The purpose of this document is to protect the value and integrity of the trademark and ensure clarity, credibility and consistency as OEKO-TEX® stands for consumer protection, traceability and transparency. This document assists companies, manufacturers, brands, retailer and all OEKO-TEX® partner to label their certified products correctly and to develop marketing materials to communicate company efforts.

These guidelines shall be considered as an integrated and binding part of the standards.

Key Terms & Definitions

Organisation

OEKO-TEX®

OEKO-TEX® is an association of independent institutes for textile and leather testing with over 70 contact offices around the world.

OEKO-TEX® issues the certifications OEKO-TEX® STANDARD 100, OEKO-TEX® LEATHER STANDARD, OEKO-TEX® StEPr, OEKO-TEX® ECO PASSPORT and OEKO-TEX® RESPONSIBLE BUSINESS and implements the product label OEKO-TEX® MADE IN GREEN.

Certificate

It is the confirmation of compliance with the criteria prescribed by an OEKO-TEX® standard and entitles the holder to use the OEKO-TEX® label.

MADE IN GREEN label

A MADE IN GREEN label is a label indicating that compliance with the MADE IN GREEN standard has been verified by a testing institute.

Certificate Number

Each certificate is assigned a number upon initial issuance. This number is shown on the OEKO-TEX® label (excluding MADE IN GREEN). If an OEKO-TEX® label is used, the customer must comply with the current brand statutes and regulations applicable to the respective and the current Terms of Use.

Label Number

Each MADE IN GREEN label has an individual product identifier (product ID). The product ID is the number and / or QR code indicated on the label. Its purpose is to provide a unique means by which the user can identify and trace the labelled article. The product ID also serves as the license number for using the label. It is therefore the verification that the article complies with the criteria.
Key Terms & Definitions

Marks

OEKO-TEX® umbrella brand

OEKO-TEX® is the umbrella brand under which all product brands are managed. The brand is presented by a logo that consists of the brand mark and logotype. There is also a logo version with the OEKO-TEX® claim.

OEKO-TEX® umbrella logo

The following certifications and the MADE IN GREEN label are defined as product brands:

OEKO-TEX® MADE IN GREEN
OEKO-TEX® STANDARD 100
OEKO-TEX® LEATHER STANDARD
OEKO-TEX® STeP
OEKO-TEX® ECO PASSPORT
OEKO-TEX® RESPONSIBLE BUSINESS

OEKO-TEX® product brand logo

Each product brand is presented by one product logo, composed of the OEKO-TEX® logo and the product brand logotype.

OEKO-TEX® product brand

OEKO-TEX® labels

The OEKO-TEX® label is the communication instrument provided by OEKO-TEX® for certified and labelled products, production facilities or management systems. OEKO-TEX® customers and partners are permitted to use OEKO-TEX® labels upon fulfillment of the requirements applicable to the relevant standards. There are different types of labels. Please learn more about this labels in the relevant Product Brand Section of this Labelling Guide.

3. Logos
1. Introduction

Umbrella Brand Logo

a. Who is permitted to use the OEKO-TEX® logo?
- OEKO-TEX® customers with valid certificate or label.
- Distributors or retailers who carry at least one product with a valid certificate or product ID.
- OEKO-TEX® testing institutes, media publications, collaborating organisations.

b. Where to place it?
Off product only.
- May be displayed on marketing material, websites and corporate materials.
- Must never be displayed on product packaging or product marketing materials.

3. Logos

c. How to use it?

In cases where a non-product specific reference to OEKO-TEX® has to be made, approval to use the OEKO-TEX® brand logo may be requested. Upon request, the use of the OEKO-TEX® umbrella brand logo is reviewed and approved individually by OEKO-TEX® or the corresponding institutes.

The OEKO-TEX® umbrella brand logo on websites or marketing materials should appear within clear proximity to the mention. The nature of the relationship must be described accurately in a pre-approved statement.

Please send your requests for logo usage and approval to the OEKO-TEX® secretariat: communication@oeko-tex.com
Product Brand Logos

a. Who is permitted to use the OEKO-TEX® product brand logos?

✓ OEKO-TEX® customers with valid certificate or MADE IN GREEN label.
✓ Distributors or retailers who carry at least one product with a valid certificate or product ID.
✓ OEKO-TEX® testing institutes, media publications, collaborating organisations.

c. How to use it?

A clear distinction between products and companies and non-certified products or companies must be made. A reference to look for the label on qualified products is highly recommended.

If OEKO-TEX® product brand logos are used for general advertisement, the physical products must be marked with the valid corresponding label, including the label number and the institute.

The OEKO-TEX® product brand logos shall never be used on products and on product marketing.

Please send your requests for logo usage and approval to the OEKO-TEX® secretariat: communication@oeko-tex.com

b. Where to place it?
Off product only.

✓ May be displayed on marketing material, websites and corporate materials (brochures, posters, newsletters, websites, presentations, fair stands, corporate communication, etc.).

✗ Must never be displayed on products or product marketing, materials e.g. tags, hangtags, product packaging or product websites.

MADE IN GREEN BY
OEKO-TEX®

STANDARD 100 by OEKO-TEX® guarantees that the materials used have been tested for harmful substances. A unique product ID allows the end customer to trace the supply chain in detail via a QR code.

STeP by OEKO-TEX® stands for Sustainable Textiles & Leather Production and represents a modular certification system for production facilities. The main goal of the certificate is to implement environmentally friendly production processes to improve health and safety and to promote high social standards at production sites.

MADE IN GREEN by OEKO-TEX® is a product label which is awarded according to strict social and ecological criteria. It is one of the few labels looking at both main criteria within the textile sector: materials used and the production process itself. It combines the certification requirements from STANDARD 100 by OEKO-TEX® and STeP by OEKO-TEX®.

Cradle to Cradle Certified® is the global standard for products that are safe, circular and responsibly made. The certification assesses the safety, circularity and responsibility of materials and products across five categories:
- Material health
- Product circularity
- Clean air & climate protection
- Water & soil stewardship
- Social fairness

Cradle to Cradle Certified® is a registered trademark of the Cradle to Cradle Products Innovation Institute.

Logo Do's & Don'ts

Oeko-Tex® Labelling Guide
4. Labels
The OEKO-TEX® label is the communication instrument for certified or MADE IN GREEN labelled products, production facilities or management systems.

OEKO-TEX® customers and partners are permitted to use OEKO-TEX® labels upon fulfillment of the requirements applicable to the relevant standards.

There are different types of labels. Please learn more about these labels in the relevant Product Brand Section of this Labelling Guide.

Traceability and transparency are important requirements for sustainability. Therefore all OEKO-TEX® labels require either a QR code or the unique label or certificate number*.

### General Information

**a. Who is permitted to use the label?**

- OEKO-TEX® customers with a valid MADE IN GREEN label.
- Distributers or retailers who carry at least one product with a valid MADE IN GREEN label.

**b. Where to place it?**

On product and marketing materials that promote the exact MADE IN GREEN labelled product, e.g. hangtag, tags, product page in online-shops, product flyers, product packaging, etc.

Please note:
Promoting ingredient labelling (referencing to MADE IN GREEN labelled components when the entire product is not labelled) on product or product marketing material is not allowed.
General Information

c. How to use on product:

The OEKO-TEX® MADE IN GREEN label may be used on products and product packaging to identify specific products that have qualified for that label.

The label should be visibly placed and easy to access for consumers on hangtag, tag, woven label or packaging.

The use of an OEKO-TEX® MADE IN GREEN label to promote MADE IN GREEN labelled products is highly recommended but not mandated by OEKO-TEX®.

How to use on marketing materials:

The MADE IN GREEN label should be used on product marketing materials. It can be used to promote OEKO-TEX® MADE IN GREEN labelled products through catalogues, flyers, product websites or any other media such as Social Media in connection with a MADE IN GREEN labelled product.

The connection with the labelled product must be always recognisable and visible for everyone. Therefore, only those goods may be advertised with an OEKO-TEX® MADE IN GREEN label which are actually labelled. This means that an MADE IN GREEN label may only be displayed in brochures, catalogues, online shops or other media such as Social Media in connection with the product whose MADE IN GREEN product ID it bears.

If a product is advertised as OEKO-TEX® MADE IN GREEN labelled, the physical product must be marked with the valid corresponding label.

OEKO-TEX® strongly recommends using the label to promote products. However, we recognise that sometimes the design-solution won’t allow it. In these cases, a second option to promote the MADE IN GREEN labelled products is available. This is done through text, which shall be in visual adjacency to the promoted product.

The text must contain the following information: full product brand name, Product ID number, institute.

Example:

Responsible and safe.

OEKO-TEX® MADE IN GREEN

www.oeko-tex.com
General Information
Advertisement Labels

a. Who is permitted to use the label?

✓ OEKO-TEX® customers with at least one valid specific MADE IN GREEN label, if logistics makes it necessary to work internally with one uniform label.
✓ Retailers may receive their own MADE IN GREEN advertisement label if they sell MADE IN GREEN labelled products in their assortment.

b. Where to place it?

On marketing materials that promote MADE IN GREEN labelled products but shall never be used on products as product labels, e.g. on hangtags, tags, etc.

Please note:

X The advertisement label shall never be used on products.

4.1 OEKO-TEX® MADE IN GREEN

The advertisement label is a label granted to OEKO-TEX® partners who are in the need to work with one uniform label for product marketing communication. OEKO-TEX® recognizes the need to broadly give a reference to OEKO-TEX® on marketing materials, such as catalogues, brochures and Point of Sale (POS) material.

If the advertisement label is used, it must be clear which products are MADE IN GREEN labelled and which aren’t. This is done by distinguishing MADE IN GREEN labelled products with the product labels (or text reference). The advertisement label can only be used if the physical product is marked with the valid MADE IN GREEN label.

The user of the advertisement label is responsible that MADE IN GREEN labelled products are clearly marked with the product label to create consumer transparency and avoid confusion between labelled and non MADE IN GREEN labelled products.

It is mandatory that the displayed label includes all the mandatory components for a MADE IN GREEN label (see page 18).
Label Design Guideline

Label Elements

The label is the communication instrument provided by OEKO-TEX® for MADE IN GREEN labelled products.

All OEKO-TEX® labels must include the following elements:

a. OEKO-TEX® product brand logo
b. Traceability Information
   (Testing Institute + Label number or QR-Code)

c. Testing institute if QR-Code is already shown.
d. Label number if QR-Code is already shown.
e. QR-Code if label number is already shown.

Please note:
✗ The advertisement label shall never be used on products as product labels, e.g. on hangtags, tags, etc.

4.3 OEKO-TEX® LEATHER STANDARD

The user of the advertisement label is responsible that certified products are clearly marked with the product label to create consumer transparency and avoid confusion between LEATHER STANDARD certified and non certified products.

It is mandatory that the displayed label includes all the mandatory components for a LEATHER STANDARD label. (see page 46)

The advertisement label is a label granted to OEKO-TEX® partners who need to work with one uniform label for product marketing communication. OEKO-TEX® recognizes the need to broadly give a reference to OEKO-TEX® on marketing materials, such as catalogues, brochures and Point of Sale (POS) material.

If the advertisement label is used, it must be clear which products are LEATHER STANDARD certified and which are not. This is done by distinguishing LEATHER STANDARD certified products with the product labels (or text reference). The advertisement label can only be used if at least one product is marked with the specific physical product label.

The user of the advertisement label is responsible that certified products are clearly marked with the product label to create consumer transparency and avoid confusion between LEATHER STANDARD certified and non certified products.

It is mandatory that the displayed label includes all the mandatory components for a LEATHER STANDARD label. (see page 46)
Label Design Guideline

Label Elements

The label is the communication instrument provided by OEKO-TEX® for certified products.

All OEKO-TEX® labels must include the following elements:

a. OEKO-TEX® product brand logo
b. Traceability Information
   (Testing Institute + Certificate number or QR-Code)

c. Testing institute if QR-Code is already shown.
d. Label number if QR-Code is already shown.
e. QR-Code if label number is already shown.
f. OEKO-TEX® website
Label Design Guideline
Horizontal Labels

The label is the communication instrument provided by OEKO-TEX® for certified products.

All OEKO-TEX® labels must include the following elements:

a. OEKO-TEX® product brand logo
b. Traceability Information
   (Testing Institute + Certificate number or QR-Code)

The modular construction of our labels allows the following additional information to be added to the label:

c. Testing institute if QR-Code is already shown.
d. Label number if QR-Code is already shown.
e. QR-Code if label number is already shown.
f. OEKO-TEX® website

General Information

a. Who is permitted to use the label?

✔ OEKO-TEX® customers with a valid STeP certificate.

b. Where to place it?

On marketing materials that promote certified companies such as PR or corporate communication.

X Must never be displayed on products.
General Information

c. How to use on marketing materials:

The OEKO-TEX® STeP label shall be used on marketing materials. It can be used to promote STeP certified companies through catalogues, flyers, fair stands, Social Media or company websites.

The connection between the label or the certificate number with the certified production facility must be recognisable at all times and for everyone. Therefore, only those companies may be advertised with an OEKO-TEX® STeP label which are certified. This means that a STeP label may only be displayed in brochures, catalogues or other media in connection with the production facility whose certificate number it bears.

The company-related label shall never be used on products and on product marketing.

OEKO-TEX® strongly recommends using the STeP label to promote company initiatives.

However, we recognise the possibility that sometimes the design-solution won't allow it. In these cases, a second option to promote the STeP certified company is available. This is done is through text.

The text must contain the following information: full product brand name, certificate number, institute

It is recommended that the text contains the link to the OEKO-TEX® website.

Example:
Responsible production for people and planet.
OEKO-TEX® STeP
XXXXXX Institute
www.oeko-tex.com

4.5 OECD-TEX® ECO PASSPORT
General Information

a. Who is permitted to use the label?

OEKO-TEX® customers with a valid ECO PASSPORT certificate.

b. Where to place it?

On product and marketing materials that promote the exact certified product, e.g. hangtag, tags, product page in online-shops, product flyers, product packaging, etc.
c. How to use on product:

The OEKO-TEX® ECO PASSPORT label may be used on products and product packaging to identify specific products that have qualified for that label.

The label should be visibly placed and easy to access for users and consumers on hangtag, tag, or packaging.

The use of an OEKO-TEX® ECO PASSPORT label to promote certified products is highly recommended but not mandated by OEKO-TEX®.

How to use on marketing materials:

The ECO PASSPORT label should be used on product marketing materials. It can be used to promote OEKO-TEX® ECO PASSPORT certified products through catalogues, flyers, product websites or any other media such as Social Media in connection with an ECO PASSPORT certified product.

The connection with the certified product must be always recognisable and visible for everyone. Therefore, only those goods may be advertised with an ECO PASSPORT label which are actually certified. This means that a ECO PASSPORT label may only be displayed in brochures, catalogues, online shops or other media such as Social Media in connection with the product whose ECO PASSPORT certificate number it bears.

If a product is advertised as OEKO-TEX® ECO PASSPORT certified, the physical product must be marked with the valid corresponding label.

OEKO-TEX® strongly recommends using the label to promote products. However, we recognise that sometimes the design-solution won’t allow it. In these cases, a second option to promote the ECO PASSPORT certified products is available. This is done through text, which shall be in visual adjacency to the promoted product.

The text must contain the following information: full product brand name, certificate number, institute.

It is recommended that the text contains a link to the OEKO-TEX® website.

Example:
Greener chemistry.
OEKO-TEX® ECO PASSPORT XXXXXX Institute

General Information

a. Who is permitted to use the label?

✓ OEKO-TEX® customers with a valid RESPONSIBLE BUSINESS certificate.

b. Where to place it?

On marketing materials that promote certified companies such as PR or corporate communication.

X Must never be displayed on products.
General Information

c. How to use on marketing materials:

The OEKO-TEX® RESPONSIBLE BUSINESS label should be used on marketing materials. It can be used to promote RESPONSIBLE BUSINESS certified companies through catalogues, flyers, fair stands, Social Media or company websites.

The connection between the label or the certificate number with the certified company must be recognisable at all times and visible for everyone. Therefore, only those companies may be advertised with a RESPONSIBLE BUSINESS label which are certified. This means that a OEKO-TEX® RESPONSIBLE BUSINESS label may only be displayed in brochures, catalogues or other media in connection with the company whose certificate number it bears.

The RESPONSIBLE BUSINESS label as such shall never be used on products and on product marketing.

OEKO-TEX® strongly recommends using the RESPONSIBLE BUSINESS label to promote company initiatives.

However, we recognise the possibility that sometimes the design-solution won’t allow it. In these cases, a second option to promote the certified company is available. This is done is through text.

The text must contain the following information: full product brand name, certificate number, institute

It is recommended that the text contains a link to the OEKO-TEX® website.

Example:
Ensuring due diligence.
OEKO-TEX® RESPONSIBLE BUSINESS
XXXXXX Institute

5. Trademark & Intellectual Property

OEKO-TEX® is registered and protected worldwide as a trademark. Unauthorized use of the OEKO-TEX® brand or label is strictly forbidden.

The issue of a certificate or the granting of a licence does not grant the customer any powers or rights to the OEKO-TEX® standards beyond those mentioned in section 9 of the OEKO-TEX® Terms of Use. As the licensee, the customer is obligated to comply with the provisions of the OEKO-TEX® standards as well as the statutes and regulations, licensing and other conditions concerning the rights to use OEKO-TEX® brands granted to the licensee based on the OEKO-TEX® Terms of Use at all times. Non-compliance will result in legal action.
